

China Factory Audit & Inspection

Engineering | Quality | Supply Chain | Compliance

Factory audit / inspection is critical in product sourcing business. SpecsPro provides independent third factory audit and inspection services. We have experienced field inspectors in Shanghai, Ningbo, Qingdao, Tianjin, Guangzhou and Shenzhen. We provide the following services:

- Factory Audit & Assessment
- Production Audit & Inspection
- Pre-shipment Inspection
- Loading Supervision
- Laboratory Testing

Successful importers take initiative to have their supply chain under their own control, rather than merely rely on their supplier's performance. A factory may be ISO 9001 certified,

however, that just indicates that the factory is assumed to have quality assurance and continuous improvement processes in its system. It does not guarantee the compliance and enforcement.

Each product has its own requirements and quality concerns. We have observed that specific processing documents and quality control program not in place for a specific product. Especially when the product is new or in trial order volume. This can be fatal to importer's sourcing product launch.

SpecsPro customizes audit and inspection programs to fit the specific need of your business. Our goal is to achieve supplier's performance enhancement, quality control process improvement, compliance assurance, and ultimately, the delivery of the right products to the right place at the right time.

About SpecsPro

SpecsPro LLC was registered in Minnesota in 2003. Our sourcing specialists have a range of working experiences from 10 to 20 years in import/export, product sourcing, manufacturing, engineering and quality assurance.

The combined knowledge and skill sets of our associates cover a wide range of industrial areas in both business and engineering. Our team of managing associates work from locations in the US and China. We serve US importers from all states and handle sourcing operations in all major cities in China.

We are well versed with business system, business culture and practice in both China and the US. Our industrial experiences come from our solid work history in import / export companies, manufacturers, carriers, freight forwarding and customs brokerage services.

We have an extended business network across the Pacific Ocean. Combined capabilities in business and engineering have become our great strength and the added-value to our clients. We have developed an advance business system in providing reliable and consistent solutions for sourcing products from China.
